## 1. Introduction

#### Sickle Cell:

Sickle Cell Disease (SCD) is a group of blood disorders typically inherited from a person's parents. It results in an abnormality in the oxygen-carrying protein hemoglobin found in red blood cells. This leads to a rigid, sickle-like shape under certain circumstances. A number of health problems may develop, like attacks of pain, anemia, swelling in the hands and feet, bacterial infections and stroke. Long-term pain may develop as people get older.

#### National Sickle Cell Disease Control Programme:

To address this serious issue of Sickle Cell Disease and to prevent morbidity, mortality and reduce prevalence rate, '*National Sickle Cell Disease Control Programme*' has been proposed and is being launched in 17 states and UTs where this disease is most common. Under this programme, NIC has developed following software:

- Web Application/portal
- Common API to migrate state existing data
- Mobile Application

#### Administrative Information

App Name	Sickle Cell
Department	National Health Mission, Ministry of Health and Family Welfare, GoI
Sector	Health
Category	G2G
Coverage	All Government Health Facilities in India
Developer	National Informatics Centre

#### Technical Details

Back-end Office Application	https://sickle.nhm.gov.in/sickle2.0/
Platform	Android
Size	15 MB
Language	English
Last Update	18-March-2023
User Authentication	Required, through Mobile number and OTP of associated Health
	Facility In-charge
Auto Alerts	Yes, through SMS and in app
Special Permissions	Camera
Internet Requirement	Required. But app will work offline also after successful login while connected.
Associated Parent website URL	https://sickle.nhm.gov.in/sickle2.0/

## **2.User Creation**

2.1 User with Role as Treatment user(Portal) has been created under User management.

🗸 🤷 Admin Da	sht × (	) sickle.nhm.g X   O view-source: X   O PDF Docum: X   O ChatGPT	×   🛚 w	/hatsApp X   🝐 Home - Goo X   🗐 Treatement   X   +	- @ ×

2.1.1 Steps to follow to create user for Treatment Module( Portal):

- 1. Login with state admin or district admin to the Portal sickle.nhm.gov.in
- 2. Select manage Users under Admin Section
- 3. Select Level Health Facility and fill the details required to create a user
- 4. Select the role Treatment User
- 5. Click on save

#### 3.1. Login Button

Enter URL <u>https://sickle.nhm.gov.in/</u>. Click on the Login button and a popup will be displayed

In popup two options are available:

- 1. Login with Parichay
- 2. Login with Mobile Number

#### 3.2. Choose Login With Mobile Number

By clicking on Login with Mobile number a user will redirect to a new page .

- Enter Registered Mobile Number and captcha.
- After successfully enter the correct captcha and registered Mobile number an OTP has been sent to the given mobile number by clicking on the SEND OTP button

#### 3.3 OTP Window

A new window will open where users can enter an OTP that has been sent to the MOBILE number.

### 3.3.1 Error Message

After successfully entering the OTP user click on verify OTP button to verify the OTP. If a user has entered a WRONG OTP an error message will be displayed.

#### 4. Treatment Module Menu

After Successfully entered a OTP a Treatment Module Window Will be open.

Right now we have three Menu on the sidebar .

- 1. Treatment Dashboard
- 2. Treatment
- 3. Lost followup

### 5. Treatment Dashboard

By clicking On Treatment Dashboard A Dashboard for treatment has opened

**NOTE:** It Displayed Total count of Diseased patients ,Total user count whose Hydroxyurea status is 1 and total count of Blood Transfusion .

By user filter a user can filter data by Health Facility, Facility Type and Disease type
